Klova+™

The UK's first truly integrated Nursecall, Fall, and Bedroom Sensor Platform

Complete in-bedroom technology

Klova™-Plus+

Klova™-Plus+ combines our leading Klova™ Nursecall System and Sphere, our in-bedroom detection sensors.

Klova™-Plus+ offers the most comprehensive and cost effective solution available to the UK care home market.

Room-Wide Awareness Zero Contact

Sphere™ is a non-invasive, contactless sensor that monitors falls and bed/chair activity across a wide 6 m × 4 m detection area.

Our privacy-first approach covering the entire bedroom with a single device reduces deployment costs while supporting timely caregiver follow-up.

Wireless Nursecall

5 min

Installation per bedroom

Simple communication.

Immediate response.

Trusted reliability.

Peace of mind.

5 min

Installation per bedroom

Bedroom Sensor

Intelligent Monitoring

Falls, Bed, Chair

Non-invasive

Earlier Intervention

Better Outcomes

Plugs into power - wall mounted

Klova-Plus+

Add K-Sense, our in-bedroom light guidance and wireless sensor network

K-SENSE

K-Sense employs simple-to-install wireless sensors to deliver non-intrusive insights onto one clear platform.

By translating daily activities into valuable data, it enables earlier intervention, improved oversight, and informed care decisions, all while being cost-effective and respecting resident dignity.

- Wireless sensors
- Automatic Light Guidance
- Sensors added in seconds
- Data-Led Insight
